# Email Setup

iOS | iPadOS

## Contents

<b>Setting up Mail on iOS</b> .....	<b>2</b>
-------------------------------------	----------

## Setting up Mail on iOS

1. On your iOS device, go to **Settings** → **Mail** (Figure 1) → **Accounts** (Figure 2). Select **Add Account** → **Microsoft Exchange** (Figure 3).

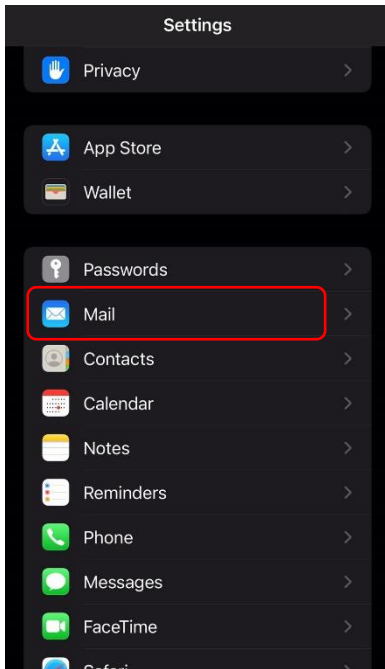

Figure 1: Mail

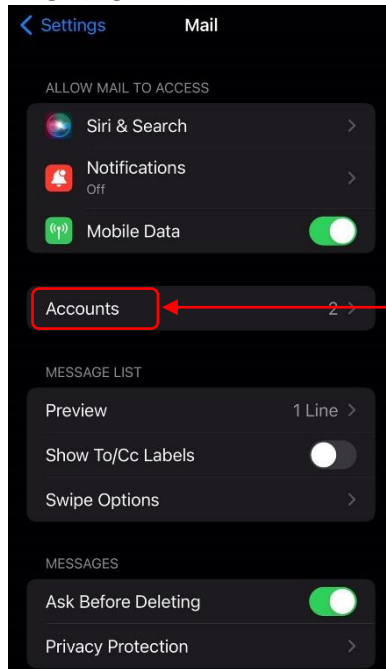

Figure 2: Accounts

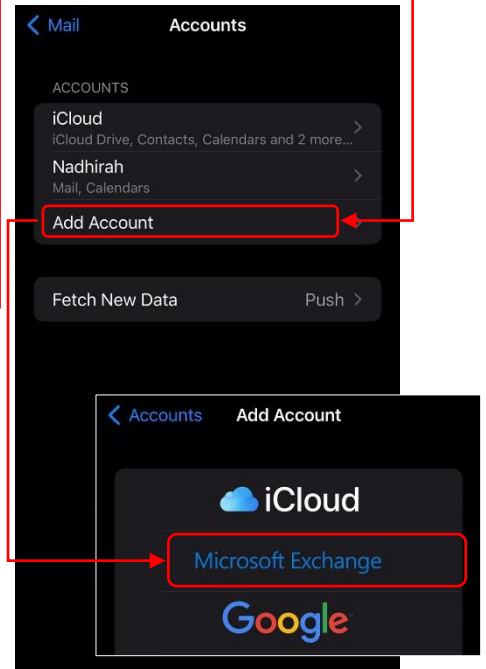

Figure 3: Add Account

2. Enter your **email & description** (Figure 4) for the email, e.g. Exchange. Select **Next**. Select **Configure Manually** when prompted (Figure 5). Enter your **password** → **Next** (Figure 6).

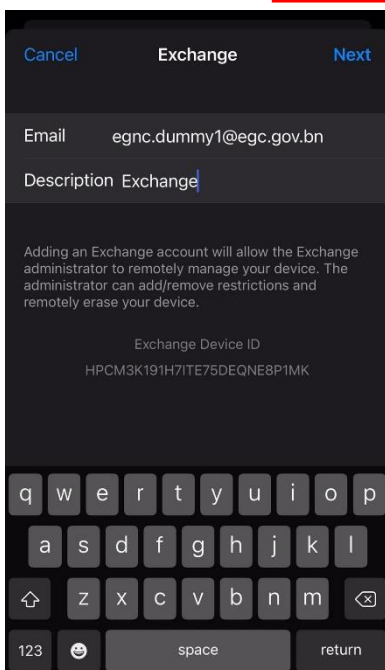

Figure 4: Enter email and description

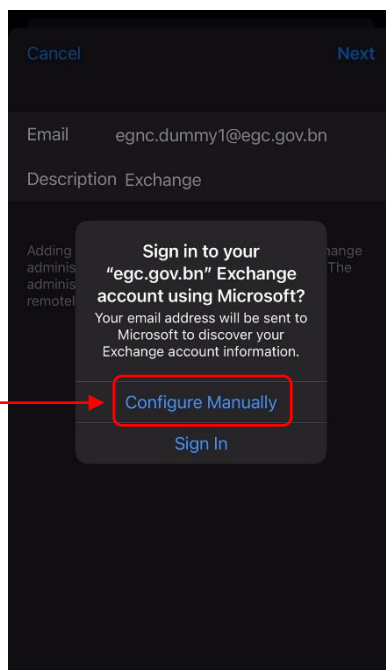

Figure 5: Select Configure Manually

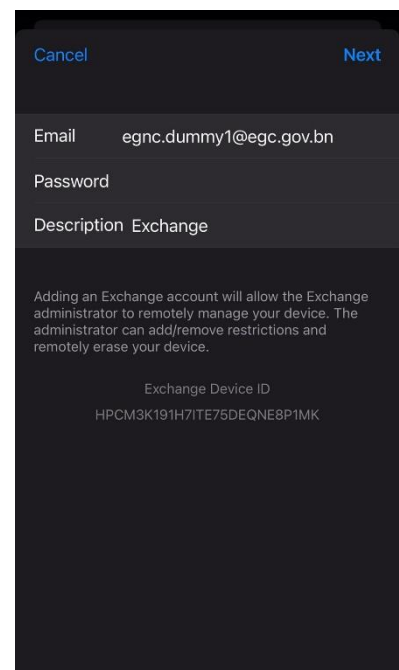

Figure 6: Enter password

3. Enter the server name **mail.gov.bn**, domain (Table 1), your username and password (Figure 7). Select **Next**. The checkmarks indicate that the email has been set-up successfully (Figure 8). Select the features you want to sync to your device, select **Save** (Figure 9).
